GIJOE@SKYBOUND.COM

Hi folks, welcome to the very first DUKE letters page! This is editor Sean here, fielding the responses to our sold-out first issue, alongside Joshua Williamson! We love getting mail, so keep sending it.

And this is Josh. Let's get to it!

Hello Joshua Williamson, Tom Reilly, Sean Mackewicz, Robert Kirkman, and the entire Duke & Skybound Energon Universe crew,

I must have been looking forward to Duke #1 since June and it didn't disappoint. I love seeing Duke's POV of the Starscream attack from Transformers #2 and how well Tom Reilly took his spin on Daniel Warren Johnson's of that event from Transformers #2. I also love the introduction of Destro and Mercer in Duke #1 and how it sets up Cobra Commander #1. I must ask were the group of masked guards who ambushed Duke while he fought Mercer supposed to be the Iron Grenadiers since this is MARS or Vipers since Mercer seemed to be commanding them or just random MARS security guards?

They are random security guards. It won't be too long before one of the troops you mentioned DO show up, though.

Since there is no Cobra yet, we don't have full-on recruiting going on. As Sean said, those were just security guards, but that doesn't mean they can't be more very soon…

Glad DUKE #1 lived up to the hype!

I loved that tease of Rock 'N Roll and Stalker at the end and how they resembled the Classified figures. I also liked Cover Girl's brief cameo there too.

Developing the Energon Universe goes hand in hand with Josh and my obsession with the G.I. Joe Classified series. My office is covered with them, and we've made it very clear that the toy team's awesome designs are the primary visual inspiration for the reintroduction of these awesome characters.

100%. I also have all those toys all over my office. Cover Girl will get more screen time as we go. Every character we introduce, we introduce for a reason.

I know I've already asked about Tiger Force, Python Patrol, Steel Corps, Star Brigade, and Adventure Team in the Void Rivals letter column so, I'll just say I'm hopeful to see those elements appear in the Energon Universe. I am curious to know how soon we'll see characters like Flint, Lady Jaye, Snake Eyes, Scarlett, and Beach Head appear in the Energon Universe.

Some soon… some not soon at all.

Who's "Snake Eyes"? I don't know that one.

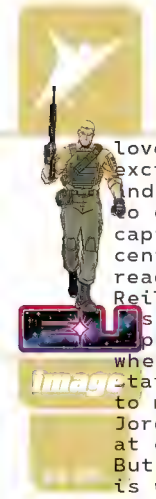
I would also like to know if there are plans to have Larry Hama write an Energon Universe GI Joe title or if he will only be writing ARAH for Skybound.

Sincerely,
Scotty

Right now Larry's concentrating on ARAH and making fantastic comics alongside Chris Mooneyham.

Hello Joshua Williamson and the rest of team Duke.

I'm going to start off this letter by mentioning that I'm not the biggest fan of G. I. Joe. That isn't to say I despise it, as I've seen some miscellaneous episodes of the various shows that have been produced over the years and I've read a few issues of the Larry Hama run of "ARAH", but it's never been one of those properties/ fandoms that I've been actively engaged with. But when the Energon Universe was first unveiled with the release of Void Rivals and the announcement of all the subsequent books that will be a part of this new shared comic universe (along with the teams working on said books), I'll admit, I was incredibly hyped. And after seeing him briefly appear in Transformers #2, I was ESPECIALLY hyped to pick up Duke #1. To say that this issue ruled would be an understatement, as I believe this was one of the best debut issues to release in all of 2023. I'm a big fan of Josh's work and it's very evident while reading Duke that he has a huge



love for G. I. Joe and it's super exciting to see him use that love and knowledge of the franchise to craft out this incredibly captivating story with Duke at the center. This is also my first time reading a book with art by Tom Reilly, but he blew me away with his page layouts and compositions, especially that 2-page spread where we see Duke's POV of the Starscream attack from TF 2. Not to mention that the colors by Jordie Bellarie do a fantastic job at complimenting Reilly's work. But, a question I have for Josh is what is the process like of not only having to update G. I. Joe, a franchise that is drenched in 80s Americana, for a modern audience but ALSO having to build upon and connect to the work being done in other EU books like Void Rivals or Transformers?

Much love,
Owen Seyler

P.S. If you're looking for suggestions for the letters column, I was thinking we could call it "DUKE CAMP". (Like "Boot Camp", but with more Duke).

Love the suggestion. I don't think we'll get around to nailing down an official name since this is a miniseries… but this might be good enough to roll with.

I like "Duke Camp". That's fun.

Wow, okay. That's a big question. First, thank you for the compliments. I try to tackle every project with a lot of love, respects and thoughtfulness for what came before, but also add to the world. I try to make sure this is a book that I would like. That's my first rule. Would I actually buy and enjoy this? I start there when I try to develop anything. Now with my piece of the Energon Universe, I've been obsessed with G.I. Joe and "How I would do it?" for many years, so I had put a lot of thought into this world, and thankfully it aligned with what Robert, Sean and Skybound wanted as well.

The root of G.I. Joe is the characters. No matter how much the world changes, the characters are its core. They are timeless, and the fun is watching how those characters interact with the story, each other and whatever new world we throw them into. So really you just take the characters and let them react to the Energon Universe. That's been my thinking while I write this.

"DUKE #1" [A Coded Fan Message]
[D]elving into the pages of an
[U]ndeniably great new comic, I
[K]new that I would be buying
[E]very future issue!
[by Reed Beebe/Code Name: LETTERHACK]

If anyone deserves that codename, it's YOU, Reed.

Beautiful.

Dear Skybound,

After finishing DUKE #1, I immediately turned back to the beginning and gave it a second read because I didn't want it to end. A tremendous amount of fun!

Loved seeing Dr. Burkhart, "Lady Doomsday" herself, but sad to see her go so soon. (With her being killed in Larry's #205, she's gone in both continuities.) I assume her death was the work of Cobra Commander and the stolen research will give his plans a boost - excited to see more!

The fight between Duke and Mercer was beautifully portrayed. I followed the action blow by blow, on the edge of my seat as if watching a movie. Great to have Mercer onboard and it will be fun to see if he defects to the Joes in this universe or not.

Mercer is a personal favorite of ours, and we're excited to tell his story. Whether it goes the way of the original, you'll have to keep reading to see!

Mercer was always one of my fav characters in G.I. Joe mythology. I wanted to see what he was like before and see how he was with Cobra. But as you can see with the book…predict the unpredictable. This will not follow some sort of set path based on what has happened before. We want to take these characters we love and forge a new path.

So excited to see Destro and just from the few lines we get, I love the way he's being written already.

A blueprint looks an awful lot like the MASS Device and I'm hoping the story doesn't go that route. After IDW spent a full two years on the MASS Device, I'd rather leave that piece of the lore behind.

I was taken out of the story a little when the police squad fired at Duke at point blank range. I wondered how they could've possibly missed him, which distracted me from being as fully immersed in the scene as I wanted to be.

Hawk! Cover Girl! Stalker! Rock N Roll! So happy we're getting these characters so soon!

I feel a high level of enthusiasm for all things Joe from Joshua Williamson and the team on this book, and I appreciate it.

Absolutely can't wait for next month's #2, CC#1, and Larry's #303. Such a great time to be a G.I. JOE fan!

Thanks,
Ernest Robertson

Glad you're enjoying the world that we're building here. With Duke and dodging bullets…did he dodge the bullets? But also…Duke is just that good

---

Hi Duke team!

First of all, I'd like to say that the first issue of Duke was AMAZING! I had never read or watched a piece of GI Joe media before, and I was blown away! The writing and art are both amazing, and I can't wait to get my hands on issue 2. My question is: Other than all the new series', what should I read or watch to get myself introduced and caught up to the GI Joe world?

Thanks,
Peter

No additional watching/reading is required to enjoy these titles…. But also, that answer's no fun. By the time you're reading this, we'll have announced that Skybound is republishing Larry Hama's & co.'s REAL AMERICAN HERO in compendium format starting this Fall. We're starting with the original Marvel run and reprinting EVERYTHING in order for the most complete JOE reading experience possible. Josh, any additional suggestions?

G.I.Joe the Movie is a fun one to watch. The cartoon in general is weird fun. And pick up some G.I. Joe Classified toys while you're at it.

Attention!

Right Face!

Forward March! …. Right on to my pull list.

I have never seen or read any GI Joe content before so I was a little hesitant to check out "Duke". With all of the great work being done on "Void Rivals" and "Transformers" I figured it wouldn't hurt to see what it was like.

This is probably one of the best ways to introduce the GI Joe characters to new readers and I am hooked. I got out of the Army 2 years ago and haven't read many military themed books since then this one is filling that void well.

I loved the idea of Duke meeting with conspiracy theorists and was not expecting that plot to come from this title. I grew up loving aliens, cryptozoology, and other weird things like that so I thought it funny but also fitting with his experience with the Transformers. Let's just hope Duke doesn't have to encounter The Loch Ness Monster and get swindled out of Tree Fiddy.

Keep up the good work. Can't wait to get the next issue.

Robert Conner

Thanks for writing, Robert. We always intended for this comic- and all the others-to be enjoyed whether you had prior experience with Joe or Transformers. Duke's life isn't about to get any less weird, but hard to be scared by the Loch Ness Monster, when we know there are much, much worse things lurking in the Energon Universe.

That's great to hear. I love that. We tried to ground the book in a bit of reality but still in the Energon Universe, so Duke is far from encountering things that mess with his world view. Thank you for putting DUKE on your pull list!

Ok, see you next month-and don't trust Baroness!

-Sean

Thank you for your support! Next month…things get bloody!

-Josh
